

The Westboro Tennis Club is building DecoTurf tennis courts. Why DecoTurf?

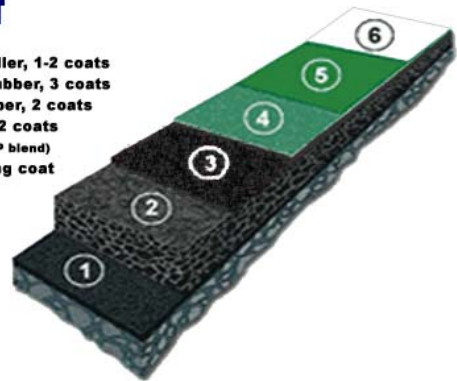

- *Reliable, durable and consistent tennis surface that has been selected for use at the US Open since 1978.*
- *Surface of choice for the 2004 Athens Olympics, 2008 Beijing Olympics, 2012 London Paralympics and more professional tournaments than ANY other surface.*
- *DecoTurf will provide a consistent speed of play on all courts*
- *DecoTurf is dedicated to providing the highest quality products and extraordinary customer satisfaction.*
- *Does not require the water or maintenance of a clay court. The average clay court uses approximately 1000 gallons of water each day!*

The DecoTurf System

- 9-10 Layer Rubberized System
- Multi-layer, flexible, & 100% acrylic
- Maximum player comfort
- Exceptional durability
- Yields truer bounces
- Consistent speed of play and the fairest surface in tennis

DecoTurf

1. Acrylic Resurfacer filler, 1-2 coats
2. DecoTurf II coarse rubber, 3 coats
3. DecoBase II fine rubber, 2 coats
4. DecoColor textured, 2 coats
(DecoBase I/DecoColor MP blend)
5. DecoColor MP wearing coat
6. White Line Paint

Points of Note:

- Strict adherence to quality control through laboratory testing
- Only highest quality raw materials & color pigments are utilized
- Computerized manufacturing assures consistent speed of play
- Relentless research and development
- Continuous in-house and independent laboratory testing
- Extraordinary customer satisfaction
- International Tennis Federation speed of play classifications in multiple categories.
